

# KIDS ACTIVITY SHEET

## What sort of plane is that?

There are a number of planes in this hangar. Some are hanging above. They all have different names - just like cars have different names eg: Holden, Toyota.

Can you name the planes shown here? This information is displayed near them.

And what is their Call-Sign?

Call Signs are like car number plates. Here's a clue. They are letters of the alphabet written on the plane.
